Date: 30 October 2025

Eng. Lamia Al Hosan Al Shamsi
SDD Director

Eng. Lamia Al Hosan Al Shamsi, is a paragon of leadership and innovation in the realm of digital transformation, currently serving as the Director of the Sharjah Digital Department. Before assuming this role, Eng. Lamia was Director of the Government Development Department in the General Secretariat of the Executive Council – Government of Sharjah, where she was instrumental with the team dedicated to enhancing government services and optimising operational efficiency.

During her tenure at Sharjah International Airport Authority, Lamia held multiple responsibilities. In addition to directing Support Services Management, she oversaw IT, HR, and training support, further amplifying her expertise in operational efficiency and technology integration.

With a background in computer engineering from the American University of Sharjah, Lamia brings a wealth of expertise to her current role. Her strategic leadership and commitment to excellence have earned prestigious institutional excellence awards for her teams.

Active engagement in industry associations such as Airports Council International and the Quality Management Association in Sharjah reflects Lamia's dedication to professional development and thought leadership.
